

SPELLS

Remove Fear*

Range: 0
Duration: 2 turns

When the cleric casts this spell and touches a creature, the spell will calm the creature and remove all fear. If the recipient is running away due to magical fear, he or she may make a saving throw vs. Spells, adding a bonus to the roll equal to the level of the cleric (for example, a 3rd level cleric will give a bonus of +3 to the roll).

Resist Cold

Range: 30'
Duration: 6 turns

This spell allows a creature to resist the effects of cold. Freezing temperatures will not harm a creature with this spell cast on it. This spell gives all creatures within the spell range a bonus of +2 on saving throws vs. "cold attacks" (such as white Dragon Breath). Any damage from cold is also reduced by -1 point per die of damage rolled (or per hit die of the white dragon). However, any cold attacks will still inflict at least 1 point of damage per die (or hit die) rolled.

MAGIC-USER AND ELF SPELLS

Magic-users and elves may use one spell at first level. Unlike clerics, magic-users and elves must select the spells to be used from those spells they know. These spells are stored in large spell books. As magic-users and elves gain levels of experience, the number of spells they may use also increases.

Each magic-user and elf has a spell book for the spells that he or she has learned. A first level character will only have one spell (a first level spell) in the spell book. A second level character will have two spells (both first level) in the spell book; a third level character will have three spells (two first level spells and one second level spell) in the spell book. The DM may choose which spells a character has in the book, or may allow the player to select them.

First Level Magic-user and Elf Spells

- | | |
|------------------|-------------------------|
| 1. Charm Person | 7. Protection from Evil |
| 2. Detect Magic | 8. Read Languages |
| 3. Floating Disc | 9. Read Magic |
| 4. Hold Portal | 10. Shield |
| 5. Light | 11. Sleep |
| 6. Magic Missile | 12. Ventriloquism |

Second Level Magic-user and Elf Spells

- | | |
|---------------------|----------------------|
| 1. Continual Light | 7. Levitate |
| 2. Detect Evil | 8. Locate Object |
| 3. Detect Invisible | 9. Mirror Image |
| 4. ESP | 10. Phantasmal Force |
| 5. Invisibility | 11. Web |
| 6. Knock | 12. Wizard Lock |

FIRST LEVEL MAGIC-USER AND ELF SPELLS

Charm Person

Range: 120'
Duration: See below

This spell can be used on any human, or human-like creature (such as bugbears, gnolls, gnomes, goblins, hobgoblins, kobolds, lizard men, ogres, pixies, or sprites). It will not affect **undead**, nor creatures larger than an ogre. If the victim fails to make a saving throw vs. Spells, the victim will believe that the spell caster is its "best friend" and will try to defend the caster against any threat (real or imagined). If the caster speaks a language that the **charmed** creature understands, commands may be given to the victim. Any commands given will usually be obeyed, except that orders against its nature (alignment and habits) may be resisted, and an order to kill itself will be refused. Creatures with above

D&D: BASIC

average intelligence (a score of 13-18) may make a new saving throw each day. Creatures with average intelligence (a score of 9-12, which includes the monsters listed above) may save again once per week, and creatures with below average intelligence (a score of 3-8) may save again once each month. (A **charm** may be removed by a **dispel magic** spell.)

Detect Magic

Range: 60'
Duration: 2 turns

This spell determines if there has been an enchantment laid upon a person, place, or thing, causing any magic item within 60' to glow. Several items may be tested until the spell's duration is ended. It is useful, for example, to discover if some item is magical, if a door has been magically **held** or **wizard locked**, and so forth.

Floating Disc

Range: 6'
Duration: 6 turns

This spell creates an invisible magical platform about the size and shape of a small round shield which can carry up to 5000 coins (500 pounds) of weight. It cannot be created in a place occupied by another object. The **floating disc** will be created at the height of the caster's waist, and will remain at that height, following the caster wherever he or she goes. If the caster goes further than 6 feet from the **disc**, it will automatically follow, with a movement rate equal to the caster's. When the spell duration ends, the **floating disc** will disappear, suddenly dropping anything that was on it.

Hold Portal

Range: 10'
Duration: 2-12 turns

This spell will magically hold shut a door, gate, or similar portal. A **knock** (2nd level) spell will open the **held** portal. A creature of 3 hit dice (or more) greater than the caster may break open the **held** portal in one round.

Light

Range: 120'
Duration: 6 turns + the level of the caster, in turns

This spell casts light in a circle, 30' in diameter. It is bright enough to read by, but not equal to full daylight. It may be cast on an object. The **light** may be cast at a creature's eyes. The creature may make a saving throw vs. Spells, but if it fails, the victim will be blinded for the duration of the spell. In D&D BASIC rules, a blinded creature may not attack. The effects of the spell will last for 7 turns if a first level magic-user casts the spell, 8 turns for a second level magic-user, and so forth.

Magic Missile

Range: 150'
Duration: 1 turn

A magic missile is a glowing arrow, created and shot by magic, which does 2-7 (1d6 + 1) points of damage to any creature it strikes. It will automatically hit any visible target. For every 5 levels the caster has gained, he or she may shoot two more missiles when casting the spell. **EXAMPLE:** a 6th level magic-user may cast three missiles. These may be shot at one target, or the caster may choose to cast the missiles at different targets.

Protection from Evil

Range: 0 (caster only)
Duration: 6 turns

This spell circles the magic-user or elf with a magic barrier. This barrier will move with the caster. The spell serves as some protection from "evil" attacks (attacks by monsters of some alignment other than the caster's alignment) by adding 1 to the spell caster's saving throws, and subtracting 1 from the "to hit" die roll of evil opponents. The spell will also keep out attacks from enchanted (summoned or created) monsters (such as living statues), but not missile fire attacks from these creatures. The spell caster may break this protection by attacking the monster in hand-to-hand combat.
