

SPELLS

attack (a false **magic missile**, a collapsing wall, etc.), the attack will not affect a victim who saves vs. Spells. If the caster moves or is affected by any attack in combat, the illusion will disappear and not return.

This spell never inflicts any real damage. Those "killed" will pass out, those "turned to stone" will be paralyzed, and so forth. These effects will wear off in 1-4 (1d4) turns.

Web

Range: 10'
Duration: 48 turns

This spell creates a mass of sticky strands which are difficult to destroy except with flame. It will cover (and usually block) an area 10'x10'x10'. Giants (see D&D EXPERT SET) or creatures with similar great strength can break through a **web** in two rounds, but weaker creatures take much longer to break through. A human of normal strength will take 2-8 (2d4) turns to break through the **web**. Flames (as from a torch, for example) will destroy the **web** in 2 rounds, but will burn any creature within it for 1-6 (1d6) points of damage. Anyone wearing **gauntlets of ogre power** (see **TREASURE**, page B50) can break free of a **web** in 4 rounds.

Wizard Lock

Range: 10'
Duration: permanent

This spell is similar to a **hold portal** spell, but may be used on anything with a lock (instead of just a door) and will last forever. A **wizard lock** can be opened by the caster or by a **knock** spell without destroying the **wizard lock**. A portal which has been **wizard locked** may be passed through without the use of a spell by any magic-using character (or NPC) of 3 or more levels greater than the caster of the **wizard lock**.

HIGHER LEVEL CLERIC AND MAGIC-USER SPELLS

The following spells are only for the DM's use when developing NPCs of an experience level higher than 3rd. The spells given are not the only spells of these higher levels. A full list of higher level spells is given in the D&D EXPERT SET. For now, the DM should use these as the only higher level spells available to NPCs.

Higher level spell casters will never go on adventures with player characters. They may be encountered with an NPC party, but make very dangerous enemies, and should be rarely used.

These spells might also be found on magical scrolls (treasure). The DM should be very careful when allowing this, as lower level characters should not become as powerful as these spells permit.

Third Level Magic-user Spells

1. Dispel Magic
2. Fire Ball
3. Fly

EXPLANATION OF CLERICAL SPELLS

Bless*

Range: 60'
Duration: 6 turns

This spell raises the morale of all friendly creatures in range by +1, and gives a bonus of +1 to all their "to hit" and damage rolls. It can only be cast on creatures not in battle.

Hold Person

Range: 180'
Duration: 9 turns

The **hold person** spell will affect any human, demi-human or human-like creature (bugbears, gnolls, gnomes, hobgoblins, kobolds, lizard men, ogres, orcs, pixies or sprites). It will not affect **undead** or creatures larger than an ogre. The victim of this spell must save vs. Spells or be paralyzed. This spell may be cast either at a single person or at a group. If cast at a single person, that person must save vs. Spells with a penalty of -2 on the die roll. If cast at a group, it will affect 1-4 (d4) persons, but with no penalty to the saving throws.

Silence 15' Radius

Range: 180'
Duration: 12 turns

This spell will make an area with a 30' diameter totally silent. Conversation and spells in this area will be prevented for the duration of the spell. This spell does not prevent a person within the area from hearing noises made outside the area. If cast at a person, the victim must save vs. Spells, or the spell effect will move with him! If the saving throw is successful, the spell will remain in the area in which it was cast, and the victim may move out of it.

EXPLANATION OF MAGIC-USER SPELLS

Dispel Magic

Range: 120'
Duration: permanent

This spell will remove spell effects anywhere within an area 20'x20'x20', and may be cast up to 120' away from the caster. It will not affect magic items, but will remove any spell effect created by a magic-user, elf, or cleric of an equal or lower level than the spell caster. This chance of failure is 5% per level of difference between the spell casters. EXAMPLE: A 5th level elf trying to **dispel** magic cast by a 7th level elf would have a 10% chance of failure.

Fire Ball

Range: 240'
Duration: instantaneous

This spell creates a missile of fire that explodes into a ball of fire 40' diameter when it strikes a target. The **fire ball** will cause 1-6 (1d6) points of fire damage *per level* of the caster to all creatures within this area. If a victim of a **fire ball** saves vs. Spells, the spell will only do 1/2 damage. EXAMPLE: A **fire ball** cast by a 6th level magic-user will explode for 6-36 (6d6) points of damage.

Fly

Range: 0
Duration: 1-6 turns + the level of the caster in turns

This spell allows the caster (or a person touched) to fly. The spell will permit movement in any direction and at any speed up to 120' per round. It will also allow the person to stop at any point (as a **levitate** spell).
