Damage:	1-2 or 1-4 or see below	Alignment:	Neutral

Cave locusts are 2-3' long, stone gray, giant grasshoppers that live underground. Because of their color they may not be noticed or may be mistaken for a statue until closely approached. They are herbivorous (eating plants) and also eat fungus such as yellow mold and shriekers. Because of this they cannot be harmed by yellow mold. They are also not harmed by most poisons. They are very nervous and will flee most of the time rather than fight. They flee by jumping up to 60' away. Unfortunately their sense of direction is not too good, and they frequently accidentally jump into a party. If they jump towards the party (50% chance) a character is determined randomly and a "to hit" roll is made. If the locust hits a character, that character takes 1-4 points of damage from being battered by the insect. The locust will then fly away.

When frightened or attacked cave locusts make a loud shrieking noise to warn their fellows. This shriek has a 20% chance per round of attracting wandering monsters to investigate.

If cornered, a cave locust will spit a brown gooey substance up to 10'. To hit a character the locust needs to make an attack against Armor Class 9. A character hit by cave locust spittle must save vs. Poison or be unable to do anything for 1 turn due to the awful smell. After this time he or she will be used to the smell, but any

character approaching within 5' of him or her must also save or be violently ill. This effect will last until the spittle is washed off.

Centipede, Giant

Armor Class:	9	No. Appearing:	2-8 (1-8)
Hit Dice:	1/2 (1-4 hp)	Save As:	Normal Man
Move:	60' (20')	Morale:	7
Attacks:	1 bite	Treasure:	Nil
Damage:	Poison	Alignment:	Neutral

Giant centipedes are insects with 1' long bodies and many legs. They like to live in damp, dark places. Their bite does no damage, but the victim must save vs. Poison or become violently ill for 10 days. Characters who do not save move at 1/2 speed and will not be able to perform any other physical action.

Doppelganger

Armor Class:	5	No. Appearing:	1-6 (1-6)
Hit Dice:	4*	Save As:	Fighter: 10
Move:	90' (30')	Morale:	10
Attacks:	1	Treasure Type:	E
Damage:	1-12	Alignment:	Chaotic

These man-sized, shape-changing creatures are intelligent and evil. A doppelganger is able to shape itself into the exact form of any human-like creature (up to 7' tall) it sees. Once in the form of the person it is imitating, it will always attack that person. Its favorite trick is to kill the original person in some way without the party knowing. Then, in the role of that individual, it will attack the others by surprise, often when the party is already engaged in combat. **Sleep** and **charm** spells do not affect doppelgangers and they save as Fighter: 10 due to their highly magical nature. When killed, a doppelganger will turn back into its original form.

Dragons are a very old race of huge winged lizards. They like to live in isolated, out-of-the-way places where few men are found. Though the color of their scaly hide (their "color") makes dragons look different, they all have quite a few things in common: they are all hatched from eggs, are meat eaters, have Breath Weapons, have a great love of treasure, and will do everything possible to save their own lives, including surrender. Breath Weapons, treasure, and surrender (subduing a dragon) are all explained in the following description.

Dragons are proud of their long history (some of them live hundreds or thousands of years), and because of this they tend to think less of the younger races (such as Man). Chaotic dragons might capture men, but will usually kill and eat them immediately. Neutral dragons might either attack or ignore a party completely. Lawful dragons, however, may actually help a party if the players are truly worthy of this great honor. When playing a dragon, a DM should keep in mind that, because of its pride, even the hungriest dragon will pause and listen to flattery (if no one is attacking it, and if it understands the language of the speaker).
