

Insect Swarms

Armor Class: 7	No. Appearing: 1 swarm (1-3 swarms)
Hit Dice: (2-4)	Save As: Normal Man
Move: 30' (10')	Morale: 11
Flying: 60' (20')	
Attack: 1 swarm	Treasure: Nil
Damage: 2 points	Alignment: Neutral

Insect swarms are a special type of monster. Swarms are not single creatures, but are whole communities of tiny creatures acting together. A swarm may be attracted to light, or a strange smell, or may be defending their lair. A swarm can be considered to be 10'x30' but may be larger or smaller. Some types of creatures which swarm are: ants, spiders and centipedes (crawlers), bees and wasps (flyers), and beetles and locusts (both crawlers and flyers).

If a character is within a swarm he or she is automatically hit by the creatures and will take 2 points of damage each round. If the character has no armor the damage will be doubled. If the character is warding the insects off (explained hereafter) or runs out of the swarm the damage will be halved. It takes 3 rounds for a character who has escaped a swarm to swat all the remaining insects.

Characters may ward off the insects by swinging a weapon or similar object around. If the object is a torch the swarm will take 1-4 points of damage. Weapons will do no damage to an insect swarm. Swarms are affected by a **sleep** spell (which will affect the whole swarm), smoke (which will drive them away), and fire or extreme cold (which will damage them). The DM may choose to have other things affect swarms if he or she wishes.

If a swarm is angry (has taken damage) it will pursue characters as best as it can. A swarm may be escaped by running out of its line of sight or diving under water. If a character dives under water he or she will take damage for one more round and then all the insects on him or her will be dead.

Killer Bee

Armor Class: 7	No. Appearing: 1-6 (5-30)
Hit Dice: 1/2 * (1-4 hp)	Save As: Fighter: 1
Move: 150' (50')	Morale: 9
Attacks: 1 sting	Treasure Type: See below
Damage: 1-3 + special	Alignment: Neutral

Killer Bees are 1' long giant bees with a very vicious temper. Killer bees almost always attack on sight, and will automatically attack anyone within 30' of their underground hive. When a killer bee successfully stings (attacks), it dies, but the creature stung must save vs. Poison or die. The stinger will continue to work its way into the victim, doing an automatic 1 point of damage per round, unless 1 round is spent pulling it out.

A special kind of honey may be found inside the beehive. If eaten, it acts as one half-strength **potion of healing**, curing 1-4 (1d4) points of damage (this will require all the honey in the hive — about 2 pints). There will always be at least 10 killer bees with their queen in or near the hive. At least 4 of these bees will have 1 hit die each. The queen bee will have 2 hit dice and can sting repeatedly without dying.

Kobold

Armor Class: 7	No. Appearing: 4-16 (6-60)
Hit Dice: 1/2 (1-4 hp)	Save As: Normal Man
Move: 60' (20')	Morale: 6 or see below
Attacks: 1 weapon	Treasure Type: P (J)
Damage: 1-4 or weapon -1	Alignment: Chaotic

These small, evil dog-like men usually live underground. They have scaly rust-brown skin and no hair. They have well developed infravision (heat-sensing sight) to a 90' range. They prefer to attack by ambush. A kobold chieftain and 1-6 bodyguards live in the kobold lair. The chieftain has 9 hit points and fights as a 2 hit dice monster. The bodyguards each have 6 hit points and fight as 1 + 1 hit dice monsters. As long as the chieftain is alive, all kobolds with him have a morale of 8 rather than 6. Kobolds hate gnomes and will attack them on sight. Treasure type J is only found in encounters in the lair or in the wilderness.

Living Statue

	<i>Crystal</i>	<i>Iron</i>	<i>Rock</i>
Armor Class:	4	2	4
Hit Dice:	3	4	5**
Move:	90' (30')	30' (10')	60' (20')
Damage:	1-6/1-6	1-8/1-8 + special	2-12/2-12
No. Appearing:	1-6 (1-6)	1-4 (1-4)	1-3 (1-3)
Save As:	Fighter: 3	Fighter: 4	Fighter: 5
Morale:	11	11	11
Treasure Type:	Nil	Nil	Nil
Alignment:	Lawful	Neutral	Chaotic

A living statue is an enchanted animated creature made by a powerful wizard. It appears to be a perfectly normal statue until it begins to move. A living statue may be of any size or material. Living crystal, iron, and rock statues are three types of living statues which serve as examples, should a DM wish to make up his or her own types. Living statues are not affected by **sleep** spells.

Crystal: Living crystal statues are life forms made of crystals instead of flesh. They can look like a statue of anything, but often appear human.

Iron: Living iron statues have bodies which can absorb iron and steel. When hit, they will take normal damage, but if a non-magical metal weapon is used, the attacker must save vs. Spells or the weapon will become stuck in the body of the living iron statue, and may only be removed if the statue is killed.

Rock: Living rock statues have an outer crust of stone but are filled with hot magma (fiery lava). When the living rock statue attacks, it will squirt the magma from its finger tips for 2d6 points of damage per hit.
