

EXPLANATION OF MAGIC ITEMS

Swords, Weapons, and Armor

When a magic weapon is used, the user adds the magical adjustment to *both* "to hit" and damage rolls. Several weapons also have a special adjustment which is only used when fighting a special type of monster. Normal weapon restrictions for character classes also apply to magical weapons. **EXAMPLE:** A cleric cannot use a sword, so a cleric cannot use a magical sword either.

Once a cursed weapon is used in battle it may not be gotten rid of. The owner will feel compelled to get it back if it is thrown away and will always draw the cursed weapon in battle. Only a high level NPC cleric or magic-user can help a character get free of the curse.

The bonus of any non-cursed magic armor or shield is *subtracted* from the character's Armor Class. **EXAMPLE:** A male fighter wearing plate mail armor and using a shield (but with no Dexterity adjustments) has an Armor Class of 2. If that character uses a **shield +1**, his Armor Class becomes 1. Magical armor has less encumbrance than normal armor, as given in the chart below.

Cursed armor will seem to *all tests* to be **armor +1** until worn in actual deadly combat. It is then revealed as AC 9. Once revealed, it may only be removed by a spell from a high level cleric or magic-user.

The DM may select the type of armor found, or may determine it randomly using the following chart (roll 1d8):

Die Roll	Type of Armor	Normal AC	Magical AC	Encumbrance of Magical Armor
1-2	Leather	7	6	75 coins
3-6	Chain mail	5	4	150 coins
7-8	Plate mail	3	2	200 coins

Potions

Potions are usually found in small glass vials, similar to Holy Water. Each potion has a different smell and taste, even two potions with the same effect. Unless stated otherwise, the effect of any potion lasts 7-12 (1d6 + 6) turns. Only the DM should know the exact duration. The entire potion must be drunk to have this effect. A potion may be sipped to discover its type and then used later. Drinking a potion takes one round.

If a character drinks a potion while another potion is still in effect, that character will become sick and will be unable to do anything (no saving throw) for 3 turns (1/2 hour) and neither potion will have any further affect. A **potion of healing** has no duration for purposes of the sickness described above. Each type of potion is described hereafter:

Diminution: Anyone taking this potion will immediately shrink to 6" in height, and can do no damage when physically attacking a creature larger than 1'. The user can slip through small cracks and has a 90% chance of not being seen when standing still.

ESP: This potion will have the same effect as the magic-user and elf spell **ESP**. The user may "hear" the thoughts (if any) of one creature within 60' by concentrating for one full turn in one direction. The user may "hear" through 2 feet of rock, but a thin coating of lead will block the **ESP**. See the magic-user and elf spell (page B17) for more information.

Gaseous Form: Upon drinking this potion, the user's body will take the form of a cloud of gas. Anything the user is carrying or wearing will fall through the gaseous body to land on the floor. The user will keep control over his or her body, and can move through small holes in walls, chests, and so forth. Any creature or character in gaseous form cannot attack, but has an AC of -2 and cannot be harmed by non-magical weapons.

Growth: This potion causes the user to grow to twice normal size, temporarily increasing Strength and giving the ability to inflict double damage on any successful hit. The user's hit points, however, will not increase.

Healing: Like the clerical **cure light wounds** spell, drinking this potion will restore 2-7 (1d6 + 1) lost hit points or will cure paralysis for one creature.

Invisibility: This potion will have the same effects as the magic-user and elf spell **invisibility**. The potion will make the user invisible. When a character *becomes* invisible, all the items (but not other creatures) carried and worn by that character also become invisible. Any invisible item will become visible once again when it leaves the character's possession (is set down, dropped, and so forth). See the magic-user and elf spell (page B17) for more information. The DM may allow players to sip this potion 6 times causing a shorter duration.

Levitation: Drinking this potion will have the same effects as the magic-user and elf spell **levitation**. The user may move up or down in the air without any support. This potion does not enable the user to move side-to-side. The user could, however, **levitate** to a ceiling and move sideways by using his or her hands. Motion up or down is at a rate of 60' per round. See the magic-user and elf spell (page B17) for more information.

Poison: Poisons look like normal magic potions. If any amount of this potion is swallowed, even a sip, the user must save vs. Poison or die.
