

DM INSTRUCTIONS

pieces. The DM rolls 1d8 and, consulting the **Potion** table, finds that a **potion of healing** is the magic item. For the trap, the DM selects a capsule of sleeping gas which will break open when the treasure is tampered with.

Room 4: The DM selects 4 hobgoblins to occupy this room along with 2 prisoners and some treasure. Rolling the chances according to the given Treasure Type for hobgoblins (D), it is found that the monsters may have 3000 silver pieces and 1-8 pieces of jewelry. Since only 4 hobgoblins are on guard (out of a possible 24, or 1/6 of the possible Number Appearing), the number of silver pieces is reduced to 1/6 the rolled number (down to 500) and the minimum (1) piece of jewelry is used. Rolling 3d6 to determine its value, the result of 11 means that the piece of jewelry is worth 1100 sp. There is a trap door in the room, leading to the lower levels of the dungeon.

Room 5: This area serves as the barracks for the goblins. No traps or treasure are indicated by dice rolls.

Room 6: This room is empty (by dice rolls of 5 and 3).

Room 7: The result of 1 (on 1d6) indicates that a monster is present. It is determined by die roll (1d20, with a result of 7) to be 1 green slime. The roll for treasure is a 4, so there is nothing in the room but the monster.

Room 8: As with room 6, this room is found to be empty.

Room 9: Four goblin guards are placed in this room. Dice rolls show that they have no treasure. There is, however, a secret door in the room, also placed by the DM.

F. FILLING IN FINAL DETAILS: Now that all the rooms are stocked, it is useful to make a dungeon Key and fill in final details. The Key should be complete enough that it (along with the scenario) is all the DM needs to run the dungeon.

When expanding the Keep, the DM should create the feeling of a haunted house by adding spooky noises and some ghostly figures which appear suddenly in odd places (though harmless). Some of the placed monsters should be **undead** (skeletons, zombies, and wights). The DM should be careful, however, not to unbalance the dungeon with *too many undead* monsters.

In the following Key, monsters will be presented in a standard form. This form will be followed whenever D&D monsters are used. The form is:

Monster name (Armor Class, Hit Dice or level, hit points, Movement Rate, Number of Attacks, Damage, Save As, Morale, Alignment).

This form will be used with the following standard abbreviations:

Monster name (AC, HD, hp, MV, #AT, D, Save, ML, AL).

Since saving throws for monsters are based on character classes, the following standard abbreviations will be used after "Save": F = fighter, C = cleric, T = thief, M = magic-user, D = dwarf, E = elf, H = halfling. Each room description will begin with the room number, followed by a note on the size of the room, in parentheses. Standard abbreviations for compass directions (N, S, E, and W for North, South, East, and West) will be used. For example, (20' N-S, 10' E-W) means that the room is 20 feet long and 10 feet wide. "Square" means that the room is exactly as wide as it is long.

DUNGEON KEY

Room #1 (15' E-W, 10' N-S): This room appears to have once been a bedroom. It is filled with rotting, moldy bedroom furniture,

but is empty of monsters, treasure, and traps. The dust on the floor has obviously been brushed to remove any footprints.

Room #2 (10' E-W, 15' N-S): This room was once a guard post (when the Haunted Keep was a castle, before becoming ruins). A faded, ragged tapestry showing a hunt divides the room in half. Clinging to the side of the tapestry away from the characters (no matter which door they use, unless they enter through both at once) is a crab spider (AC 7, HD 2*, hp 10, MV 120' (40'), #AT 1, D 1-8 + poison, Save F: 1, ML 8, AL Neutral).

On the north side of the tapestry is a wooden table and 3 wooden chairs. A few moldy cards lie on the tabletop. Against the west wall is a wooden chest. Any attempt to disturb the chest will bring an immediate attack by the crab spider. The chest contains 99 sp (silver pieces).

Room #3 (15' E-W, 20' N-S): The walls of this room are carved with leering human faces along their length. A close examination of the north wall will reveal a crack around one particularly sinister face. The face is on a swivel and can be pried open. Behind it is a small iron safe cemented into the wall. The safe is trapped with **sleep** gas which will billow out unless the trap is deactivated. The **sleep** gas will fill a circular area 10' in diameter, but otherwise has the same effects as a **sleep** spell; however, any creature who saves vs. Poison will not be affected. Inside the safe are 400 sp and an unmarked bottle of clear liquid (a **potion of healing**).

Room #4 (15' square): This was the office of the tower commander, though all furnishings have been removed. Two terrified prisoners huddle in one corner, their hands and feet in chains. Guarding the prisoners are 4 hobgoblins (AC 6, HD 1+1, hp 7, 9, 4, 5, MV 90' (30'), #AT 1, D 1-8, Save F: 1, ML 8, AL Chaotic) who will fight anyone who tries to rescue the prisoners. The largest hobgoblin has a locked iron box which contains 500 sp and a jeweled necklace worth 1100 gp. Underneath a rug in the middle of the floor is a trapdoor to the 2nd level.

Room #5 (15' square): Once this room was a chapel, but now the altar is covered with dust. On the altar is a grime-covered statuette depicting a muscular man with a rat's head. Most of the twelve goblins (AC 6, HD 1-1, hp 5 each, MV 60' (20'), #AT 1, D 1-6, Save F: 1, ML 7, AL Chaotic) are either sleeping on crude bunks along the walls or playing dice games in a corner while two of them watch the door. If loud noises are made in the corridor outside, all the goblins will be awake when the party enters. They have no treasure.

Room #6 (10' square): It is difficult to determine what this room was used for. It is empty except for a few splinters of wood, which may mean that the furniture was broken up (probably to serve as firewood). The room is empty of monsters, treasure, and traps.

Room #7 (10' square): This room is similar to #6, but there is a green slime (AC none, HD 2*, hp 13, MV 3' (1'), #AT special, D special, Save F: 1, ML 12, AL Neutral) clinging to the ceiling. A cautious party will see the slime, but an unwary party will not see it until it falls on one of them.

Room #8 (15' square): This room was once a guard barracks. The floor has collapsed and the ceiling leaks. The result is a 3' deep pool filled with scummy water. A partially waterlogged bunk floats in the water. A rusted iron statue of a beautiful warrior maiden lies at the bottom of the pool. The water is safe to walk through, and the statue is harmless and worthless.

Room #9 (5' E-W, 10' N-S): This cubbyhole has a secret door and was used to spy on those walking down the corridor. There are now 4 goblins (AC 6, HD 1-1, hp 5, 3, 4, 1, MV 60' (20'), #AT 1, D 1-6, Save F: 1, ML 7, AL Chaotic) in the room, spying on anyone approaching in the corridor. They have no treasure.
