

## PART 2: PLAYER CHARACTER INFORMATION

In the DUNGEONS & DRAGONS Basic booklet, players were introduced to the character classes, the information needed for the first 3 levels in each, and the equipment and spells that characters would need. This section of the D&D Expert book gives the information necessary for advancing to higher levels.

### Charts and Tables

The tables for experience are all organized as in the D&D Basic rules, listing level, title, experience points required, hit dice or hit points gained per level, and spells (if any) usable per level. When a character attains 9th level, he or she will have reached the "name level" for that class, such as all clerics of 9th level and above are called *matriarchs* or *patriarchs*, depending on whether the character is female or male. More importantly, after the character attains "name level" the character ceases to gain more hit dice and will only receive additional hit points per level thereafter. The number of points gained at each level is listed as +1 or +2. This number is *not* adjusted by high or low constitution scores and is merely added to the total hit points of the character.

It will be noted that demi-human classes cannot rise above certain levels. This is a balancing factor and the limits will be given in the text when needed.
