

PART 3: SPELLS

The following section lists additional spells for clerics, elves, and magic-users of experience levels 4th to 14th. These spells are listed and described in the same way as in the DUNGEONS & DRAGONS Basic set. The information given there about how spells are cast also applies here.

CASTING RESTRICTIONS. The spell caster must be able to talk and use the proper hand motions to cast a spell. A spell-caster who is bound and gagged may not cast a spell. The caster can do nothing else in the round a spell is cast. The caster must inform the DM that a spell is being cast and which spell will be cast before the initiative dice are rolled. If the caster loses the initiative and takes damage or fails a saving throw, the spell is interrupted and lost. In addition, the caster must be able to see the creature or area the spell is to be cast on.

RE-MEMORIZING SPELLS. In order to regain spells, the caster must be well-rested (about one night's sleep) and have about an hour of uninterrupted "game time" to study (magic-user or elf) or pray (cleric). Magic-users and elves must also have their spell books with them to regain spells.

REPLACING LOST SPELLBOOKS. A magic-user or elf whose spell books are lost or destroyed cannot regain spells until these are replaced. It takes 1000 gp and 1 week of study per spell level to replace a spell in a new book. Thus, a book with two first-level spells and one second-level spell would cost 4000 gp and take four weeks to completely replace. During this time the magic-user or elf must remain out of the campaign.

GETTING NEW SPELLS. Clerics receive new spells directly from the power they serve, so they will be able to learn any spell on the clerical spell list once they gain enough experience to cast spells of that level.

Magic-users and elves must be taught their new spells. Most player character magic-users and elves are assumed to be members of the local Magic-Users Guild or apprenticed to a higher level NPC. When player characters gain a level of experience, they will return to their masters and be out of play for one "game-week" while they are learning their new spells. Either the player or the DM may choose any new spells. Magic-users and elves are limited to the number of spells they may know, and their books will contain spells equal to the number and level of spells the caster can use in a single day (thus, the books of a 4th level elf will contain two first and two second level spells).

REVERSED SPELLS. Certain spells can be cast to give a result opposite to the normal effect (**cure light wounds** becomes **cause light wounds**, etc.). The effects of a reversed spell are detailed in the spell description.

Reversed Clerical Spells. Clerics can reverse a spell simply by reversing the required words and hand gestures. However, using reversed spells is looked upon with disfavor by the powers the cleric serves, and may result in penalties (or even an alignment change) if overused. Lawful clerics use the normal form of the spell and should use the reversed form only in life-or-death situations. Chaotic clerics normally use the reversed forms and will only use the normal forms to benefit those of the same alignment or those directly serving the same power. Neutral clerics will have either the normal or the reversed form available, depending on the nature of the power they serve. No cleric should have *both* forms available. Whether reversed spells may be used is left to the DM's decision.

Reversed Magic-User and Elf Spells. Reversible magic-user and elf spells are special spells that can be memorized "backwards" from the caster's spell books. The spell caster selects what form of the spell is taken when the spells are memorized for the day. It is possible for the magic-user or elf to memorize both the normal and the reversed form of the same spell, if more than one spell of that level can be memorized.

SPELL "STACKING". Through the use of certain spells, "to hit" numbers, damage rolls, saving throws, morale, and other abilities of characters can be increased (or decreased) for a short time. In general, spells that affect the same ability will *not* combine (for example, casting two **haste** spells on a character does *not* allow the character to move at four times normal speed). However, spells will usually combine with magic items (a **bless** spell and a magic sword will both increase the "to hit" number, for example).

FIRST LEVEL CLERICAL SPELLS

The following first level clerical spells may be reversed. Ranges, durations, saving throws, and areas of effect will be unchanged unless noted.

Cure Light Wounds

When reversed, this spell (**cause light wounds**) will do 2-7 points of damage to any creature or character touched. The cleric must roll to hit the opponent in normal combat.

Light

Reversal of this spell (**darkness**) will create a circle of darkness 30' in diameter. It will block all sight, except that infravision will work within the area. It will cancel a **light** spell if cast against it and vice versa. If cast at an opponent's eyes, it will cause blindness until cancelled, or until the duration is reached.
