

Magic Jar

Range: 30'

Duration: special

With this spell, the caster puts his or her body in a trance and transfers his or her life-force to an inanimate object (**magic jar**) within range. From this object, the spell caster may attempt to possess (take over) any one creature within 120' of the **magic jar**. If the victim makes a successful saving throw, the possession has failed and the caster may not try that victim again for one game turn. If the victim fails the saving throw, the creature is possessed and its body will do as the caster wills. While under the control of the spell caster no spells of the possessed may be used. If the possessed body is destroyed, the magic-user or elf must return to the **magic jar**. From there the caster may try to possess another body or return to his or her own. The caster can be forced out of the possessed body by a **dispel evil** spell.

Destroying the **magic jar** while the caster's life force is in it kills the caster. Destroying the **magic jar** while the caster's life-force is in another body strands the life-force in the possessed body. Killing the caster's real body strands the life-force in the **magic jar** until the caster can possess another body! Once the caster returns to his or her real body the spell is over.

**Pass-Wall**

Range: 30'

Duration: 3 turns

This spell opens up a 5' diameter hole up to 10' deep in solid rock or stone. When the spell ends, the hole closes.

Telekinesis

Range: 120'

Duration: 6 rounds

The caster may levitate and slowly move weights of up to 200 coins weight/level. Thus a 10th level elf could move up to 2,000 coins of weight. The entire weight may be moved up to 20' per round in any direction the caster desires. Unwilling creatures get a saving throw vs. Spells. A successful save results in the spell having no effect. The caster must concentrate while moving objects, and if disturbed the telekinised objects will fall.

Teleport

Range: 10'

Duration: instantaneous

This spell instantly transports the caster or another creature any distance to any known place the caster can visualize. The transported creature (carrying up to its full encumbrance load) will arrive at "ground level" in any suitable open place. The chance of arriving safely at the aiming point depends on how carefully the caster has studied the area. Casual knowledge means the caster has been there once or twice, or is visualizing the aiming point from descriptions or magical scanning. General knowledge means the caster has been to the area often, or has spent several weeks studying the area magically (via **crystal ball**, etc.). Exact knowledge means the caster has made a highly detailed personal study of the aiming point. The chances of success are:

Knowledge	Success	Too High	Too Low
Casual	01-50	51-75	76-00
General	01-80	81-90	91-00
Exact	01-95	96-99	00

A creature arriving too high rolls 1d10 for the number, in tens of feet, the creature is above the aiming point. If this area is occupied by a solid object, the creature dies instantly. Otherwise, each 10' a creature falls will do 1d6 points of damage on impact. A creature arriving too low has teleported into the ground or other solid object and dies instantly. A creature can never be deliberately teleported too high, too low, or into a solid object. An unwilling creature is allowed a saving throw vs. Spells.

Transmute Rock to Mud*

Range: 120'

Duration: 3-18 days

This spell changes a volume of rock up to 3,000 square feet and 10' deep, to a morass of mud. Creatures entering the area of mud may be mired and are slowed to 1/10th of their normal movement speed.

The reverse of this spell (**transmute mud to rock**) changes up to 3,000 square feet of mud (10' deep) to rock. The effect of this reversed version is permanent.

Wall of Stone

Range: 60'

Duration: special

This spell creates a 2' thick wall of stone 1,000 cubic feet (i.e. 10' x 10' x 10') in any shape the caster desires. The wall will last until broken through or dispelled by **dispel magic**. The spell must be cast to rest on the ground or similar support and cannot be cast in a space occupied by another object.

SIXTH LEVEL MAGIC-USER SPELLS

Anti-Magic Shell

Range: 0' (caster only)

Duration: 12 turns

This spell creates a personal barrier about the caster that stops any magic spell or spell effect from coming in or going out. It blocks *all* spells (including the caster's) until the duration is up or until the caster decides to end the spell.

Control Weather

Range: 0'

Duration: concentration

This spell allows the caster to create one special weather condition in the area within a 240 yard radius of the caster. The spell only works outdoors and the weather will affect all creatures in the area (including the caster). The effects will last as long as the caster is stationary and concentrates. The effects of the weather conditions will vary, but the following are typical:

Rain. Characters fire missiles at -2 on their "to hit" rolls. After three turns, the ground will be muddy, reducing movement by half.

Snow. The distance a creature can see is reduced to 20' and movement is reduced by half. When the snow thaws, mud will still reduce movement. Rivers and streams may freeze over.

Fog. Vision range is reduced to 20'. Movement is also reduced by half while the fog lasts. The DM may want to give creatures in the fog a chance of moving in the wrong direction.

Clear. This cancels bad weather (rain, snow, fog) but not secondary effects (like mud).

Intense Heat. This reduces movement by half while in effect, but will dry out mud caused by rain, snow, **transmute, rock to mud**, and other conditions.

High Winds. This prevents missile fire and flying, and reduces movement by half. At sea, ships sailing with the wind move 50% faster. In the desert, high winds will create a sandstorm that reduces movement by half and cuts vision to 20'.

Tornado. This creates a whirlwind under the caster's control. It moves 120' per round, attacks as a 12-dice air elemental and dissipates when the spell ends. At sea, ships caught by a tornado must make a saving throw as against storms or take 12 points of hull damage (see page X63).

Death Spell

Range: 240'

Duration: 1 round

This spell affects a cube 60' on a side. It will kill 4-32 (4d8) levels of creatures of less than 8 hit dice in this volume. Any excess levels of effect are lost. Each creature is allowed a saving throw vs. Death Ray. A successful save results in no effect. The spell will not affect creatures of 8 or more hit dice, nor will it affect undead.
