

Seaman (Rower, 2 gp/month; Sailor, 10 gp/month; Captain, 250 gp/month; Navigator, 150 gp/month). Rowers are employed to handle oars on galleys and longships. They fight as "normal men" armed as peasants only when the situation is desperate. Seamen are usually "normal men" who are capable of sailing vessels and fighting as light foot mercenaries when the craft is attacked. They are equipped like light foot. A captain is necessary for all larger ships. He or she will have skills as a sailor and will know coastal waters. A navigator is skilled in piloting a ship on long ocean voyages. Any ship out of sight of land without a navigator on board is automatically lost.

Spy (500 + gp/mission). A spy (usually a thief) is hired to spy on a group the character wants more information about. The spy may either be an outsider who attempts to join the group or a member of the group who is bribed to become a spy. The DM decides how long a mission will take. The spy will have a chance of success decided by the DM, based on what information the character wants, the precautions the group has taken against spies, and how much money the character pays for the mission. There may be a chance the spy will betray the character, and the loyalty of the spy is known only to the DM.

Mercenaries

Mercenaries are usually hired to guard a stronghold or castle. The costs given cover upkeep only; armorers and smiths are also required to maintain the equipment of mercenaries in good condition. For hazardous (wartime) duty, these costs are doubled. The morale of mercenaries may be lowered by high death rates, low pay, poor treatment, and so on. Good treatment and success in battle may give better morale. The DM will have to determine what type of troops a character may employ and when. Typical morale ratings are:

Peasant Militia	6	Mounted Men-at-Arms	add +1
Barbarian "Horde"	7	Elite Troops	add +1
Men-at-Arms, Viking Raiders	8	Fanatics, Berserkers	add +2

Mercenaries Troop Type	Cost in GP/month*

Mounted Bowman (light horse and shortbow)	15	—	30	—	—

Wolf Riders (leather and spear)	—	—	—	—	5
Mounted Crossbow- man (mule and crossbow)	—	15	—	—	—

*For hazardous duty the cost is double. The cost should be much higher if the DM permits mercenaries to go on an adventure with a player character. How much is left to the DM.

The costs given for each troop type include the cost of feeding and supplying that soldier with his or her gear. Mercenaries will already own their own weapons and armor. Armorers and smiths are still required to maintain the arms and armor.
