

Giant piranha. These deadly fish are 5' in length and have green and black scales. They will attack anything that disturbs the water near them. Up to 8 giant piranha can attack the same target. Once blood is drawn they go into a feeding frenzy and will not check morale. Piranha inhabit warm fresh waters and prefer rivers to lakes.

Spiny rockfish. This fish, found in shallow salt water, is very difficult to distinguish from normal boulders. There is a 70% chance that it will be mistaken for a boulder or lump of coral. The rockfish is normally harmless, but will viciously attack anyone who disturbs it. Its body is covered with spines, and it may lash 4 of them at any character. These spines do 1-4 points of damage each and are deadly poisonous (save vs. Poison or die). Mistaking a rockfish for a rock or lump of coral and grasping it will result in 4 automatic hits, each requiring a save vs. Poison in addition to the normal damage taken.

Giant catfish. This chalky white fish is about 15' long. It has two long feelers that sprout from each side of its mouth, and lurks in the cool muck of river and lake bottoms attacking swimmers or things moving on the bottom.

Giant sturgeon are almost 30' long. They are covered with thick armorlike scales. Sturgeons are vicious fighters. On a roll of 18 or better they will swallow their prey whole.

Any character swallowed takes 2-12 points of damage per round and must make a saving throw vs. Death Ray or be paralyzed. If the character saves, he or she may try to hack a way out at a penalty of -4 (the inside of a sturgeon has a base AC of 7).

Hill giants. These hairy brutes are 12' tall and very stupid. They wear animal skins and carry huge clubs and spears. These giants live in the foothills of mountains and raid human communities from time to time for food and plunder.

Stone giants. These giants are 14' tall and have gray rock-like skin. They use large stalactites as clubs. They hurl rocks up to 300'

for 3-18 (3d6) points of damage. They live in caves or crude stone huts, and may (50%) have 1-4 cave bears as guards.

Frost giants. These awesome giants are pale-skinned with light yellow or light blue hair. They stand 18' tall, have long full beards, and wear fur skins and iron armor. Frost giants may hurl rocks up to 200' for 3-18 (3d6) points of damage. They often build castles above the timberline of snow-capped mountains. They will always have either 3-18 (3d6) polar bears (20% chance) or 6-36 (6d6) wolves (80% chance) as guards. Frost giants are not affected by cold-based attacks.

Fire giants. These giants have red skin and dark black hair and beards. They are 16' tall and wear copper, brass, or bronze armor. Fire giants throw rocks up to 200' for 3-18 (3d6) points of damage. Fire giants usually make their home near volcanoes or other equally hot places. Their castles are low and have thick walls and are made of black baked mud reinforced with crude iron. They will always have either 1-3 hydras (20%) or 3-18 (3d6) hellhounds (80%) as guards. These giants are not affected by fire-based attacks.

Cloud giants. These fierce giants have white or gray skin and hair. They wear pale robes and stand 20' tall. Cloud giants have keen eyes and a sharp sense of smell, so they are rarely surprised (a 1 in 6 chance). They may throw boulders 200' for 3-18 (3d6) points of damage. They live in castles in the sides of mountains or atop masses of clouds. Their guards will be 3-18 (3d6) giant hawks (clouds or mountains) or 6-36 (6d6) dire wolves (mountains only). Cloud giants hate to be disturbed and may block mountain passes to discourage trespassers.

Storm giants. These are the tallest giants, often over 22' tall. They have bronze colored skin and bright red or yellow hair. They love thunder storms and may create one in 1 turn. If a storm is present, a storm giant may throw one **lightning bolt** every 5 rounds. This bolt will do damage equal to the remaining hit points of the giant (a saving throw vs. Spells will reduce this to 1/2 damage). Storm giants live on mountain tops, in cloud castles, or deep under water. Their castles will always be guarded by either 2-8 (2d4) griffons (mountains and clouds) or 3-18 (3d6) giant crabs (under water). Lightning does not affect these giants, and they are often found in the middle of fierce storms, enjoying the weather.
