

Weaknesses of Vampires. Vampires will not come within 10' of any strongly presented holy symbol, although they may move to attack the person holding the symbol from another direction. A strong odor of garlic repels them (save vs. Poison, or cannot attack that round). Vampires cast no reflection and avoid mirrors.

A vampire may take the form of a human, a dire wolf, a giant bat, or a gaseous cloud at will. This transformation requires 1 round. In dire wolf or giant bat form, the vampire will move, attack, and do damage according to the statistics for those creatures. The vampire's armor class, hit dice, morale, and saving throws remain unchanged. In gaseous form, a vampire can fly at the listed speed and has immunity to **all** weapon attacks. A vampire cannot attack while in gaseous form.

Vampires cannot cross running water, either on foot or flying, except at bridges or while in their coffins. During the day, a vampire usually rests in its coffin, and failure to do so results in the loss of 2-12 hit points per day. These hit points will not be regenerated until the vampire has rested in its coffin for a full day.

Destroying Vampires. A vampire can be destroyed by driving a wooden stake through its heart or by immersion in running water for 1 turn. If a vampire is exposed to direct sunlight, the creature must make a saving throw vs. Death Ray each round or disintegrate. Note that a **continual light** spell will not disintegrate a vampire, but will partially blind it (making its attacks suffer a -4 penalty "to hit"). If all of the vampire's coffins are blessed or destroyed, the vampire will weaken, taking damage as above, and will die when its hit points are reduced to 0. A vampire will always have several well-hidden coffins available.

A giant weasel is 8'-9' long and covered with a richly colored fur of white, gold or brown. These quick and vicious predators hunt singly or in groups. Once they bite, they will hold on and suck blood, doing 2-8 points of damage each round until their prey is dead or until they are killed.

Giant weasels have infravision to 30' and can track parties by scent. They will pursue wounded prey in preference to all other. They live in tunnels underground, and their treasure will be found on the bodies of creatures they have slain and pulled to their lair to eat.

Killer whale. These are 25' long and are found mainly in cold waters. They live by hunting other sea creatures (even other whales). Creatures of halfling size or smaller will be swallowed whole if the killer whale scores a 20 on its "to hit" roll. Those swallowed take 1-6 points of damage per round and will drown in 10 rounds unless freed.

Narwhal. The narwhal is 15' long, grey to white in color, and has an 8' long spiral horn on its head (like that of a unicorn). It is an intelligent, magical creature, very independent and secretive. It is rumored that their horns vibrate in the presence of evil. Their horns are worth from 1,000 to 6,000 gold pieces each (1d6 x 1000) for their ivory. Narwhals roam arctic waters.

Sperm whale. This huge whale can grow to be 60' long. It preys on the most feared denizens of the deep (such as the giant squid). Man-sized or smaller creatures will be swallowed on a die roll that is 4 or more than the score needed to hit, taking 3-18 points of damage per round. Sperm whales will sometimes (10% chance) attack ships, attempting to ram. Should the sperm whale succeed, it will do 6-36 points of damage to the ship.

Wraith*

Armor Class:	3	No. Appearing:	1-4 (1-6)
Hit Dice:	4**	Save As:	Fighter: 4
Move:	120' (40')	Morale:	12
Flying:	240' (80')		
Attacks:	1 touch + special	Treasure Type:	E
Damage:	1-6 + energy drain	Alignment:	Chaotic

A wraith is an **undead** monster that drains the life-force of its victims. It has no physical body and looks like a pale, manlike, almost transparent figure composed of thick mist. It is immune to **sleep**, **charm**, and **hold** spells. A wraith can only be hit by silver or magical weapons, but silver weapons will only do half damage.

When a wraith hits in melee, it will do normal damage and also drain one life energy level (see **spectre**). Wraiths dwell in deserted lands or in the dwellings of creatures they have slain or frightened away. Characters slain by a wraith will become wraiths under the control of the one that killed them after one day.

Wyvern

Armor Class:	3	No. Appearing:	1-2 (1-6)
Hit Dice:	7*	Save As:	Fighter: 4
Move:	90' (30')	Morale:	9
Flying:	240' (80')		
Attacks:	1 bite/1 sting	Treasure Type:	E
Damage:	2-16/1-6 + poison	Alignment:	Chaotic

A wyvern looks like a two-legged, winged dragon with a long tail. In combat, the wyvern will bite and arch its tail over its head to hit opponents in front of it. Those stung by the tail must save vs. Poison or die. These beasts prefer to live on cliffs or in forests, but may be found anywhere.
