

Unless otherwise noted, one Primary power may be used each round, once per round. The user must have the sword in hand and be concentrating on the power in order to use it. Duplicate results should be rolled again unless noted otherwise.

Detect evil (good). The sword will be able to detect one of these intentions up to a range of 20'. (Animals and traps are neither evil nor good.)

Die Roll	Extraordinary powers
01-10	Clairaudience
11-20	Clairvoyance
21-30	ESP
31-40	Telepathy
41-50	Telekinesis
51-59	Teleportation
60-68	X-ray vision
69-77	Illusion
78-82	Levitation
83-87	Flying
88-92	Healing (duplicate allowed)
93-97	Extra damage (duplicate allowed)
98-99	Make two more rolls on this table
00	Make three more rolls on this table

As with Primary powers, the user must have the sword in hand and be concentrating on the power. Any Extraordinary power is only usable three times per day unless specially noted otherwise.

Clairaudience. This power will allow the user to hear noises (including speech) in an area up to a range of 60' through the ears of a creature in that area (unless blocked by lead). The user must concentrate for one turn in order to hear what the creature hears.

Clairvoyance. This power will allow the user to see an area up to 60' away through the eyes of a creature in that area, unless blocked by lead. The user must concentrate for one turn in order to "see".

ESP. The user of the sword may listen to any one living creature's thoughts. The user must concentrate in one direction, and can only "hear" thoughts within 60' (unless blocked by lead). The user will understand any thoughts "heard".

Telepathy. This power will allow the user to perform the same powers as ESP (above), but also gives the ability to "send"

thoughts to the creature contacted (as a **helm of telepathy**). The creature may refuse to answer.

Telekinesis. The user of the sword may move up to 2,000 coins of weight by concentration alone. See the magic-user's spell of the same name for more information.

Teleportation. This power allows the user of the sword to **teleport** (as the magic-user's spell).

X-ray vision. This power produces the same effect as a **ring of X-ray vision** (the ability to see through anything, except gold or lead).

Illusion. This power allows the user to create one **phantasmal force** spell (as the magic-user's spell).

Levitation. The user of the sword may **levitate** as if using the magic-user's spell of the same name, for a maximum of 3 turns.

Flying. The user of the sword may **fly** as if using the magic-user's spell of the same name, for a maximum of 3 turns.

Healing. The sword will heal up to 6 points of damage at the rate of 1 hit point per round. This power may only be used once per day. Duplicate ability rolls will increase the amount of healing and the time required by 6.

Extra damage. This power will increase the user's strength when striking for 1-10 (1d10) rounds. During this time, the user will inflict 4 times the normal damage on each successful hit (but has no better chances to hit). Each duplicate roll of this power increases the multiplier by 1 (to 5 times, 6 times, etc.).

7. EGO. To determine the Ego score of an intelligent (non-special purpose) sword, roll 1d12. The Ego of the sword is a measure of the force of its personality. A sword with high intelligence and ego may try to control its user. The DM should make a control check at certain times.

Control checks. An intelligent sword must be checked to see if it controls its user in five different situations:

1. When the character *first* handles the sword.
2. When the character is wounded to a point where half of his or her original hit points are gone.
3. When the character acquires any other magic weapon.
4. When a character of a different alignment tries to use it.
5. When a situation arises where the special purpose of the sword (if applicable) can be used.

To make the control check, the DM must find the **will score** of the user and of the sword. When the will scores are found, the being with the higher total **will score**, either character or sword will control the actions of the character.

Will score. An intelligent sword's will score is found by adding the sword's Intelligence, Ego, and bonuses. The sword gets a bonus of +1 to the will score for each Extraordinary power it has, plus 1-10 (1d10) points if the sword is of a different alignment than the user. A character's will score is found by adding the character's Strength and Wisdom scores and subtracting any adjustments due to wounds, as follows: if the character is damaged but no more than 1/2 the original hit points, 1-4 (1d4) points are subtracted. If the character has lost more than 1/2 the original hit points, 2-8 (2d4) points are subtracted from the Will score.

Swords in control. If a sword controls a character, the DM must decide on the actions of the sword in certain situations. These may include:

- Leading the user past other magic weapons found, or discard other weapons.
- Forcing the user to charge into combat to win glory for itself.
- Forcing the user to surrender to an opponent — either one more worthy of the sword or one easier to control.
- Forcing the user to spend most of his or her money on items for the sword (jeweled fittings, fancy scabbards, special magical protection, etc.).

The control will last until the sword is satisfied or until the situation which caused the control check has passed.
