

usually hidden or protected by monsters, traps, or magic. The usual guardian for a treasure of this size is a monster from the **Wandering Monster** table for levels 5-6 (or greater); see page X55. The DM may want to prepare several treasure maps.

RINGS

A ring must be worn on a hand to have the given effects, but may be carried and put on when desired. Some rings are explained in the D&D Basic rulebook; additions are described below. Rings are usable once per round, unless otherwise noted.

Control Human: The wearer may cast a powerful **charm person** spell a range of 60' (as the magic-user's spell of the same name). The victim may save vs. *Spells to resist the effect*, but with a penalty of -2 on the die roll. The wearer may control up to 6 hit dice of humans at one time (normal humans count as 1/2 hit die each). Controlled persons may not cast spells. The control will last until dispelled by a magic-user, cancelled by the wearer of the ring, or until the ring is removed.

Control Plant: The wearer may animate and control all plants and plant-like creatures (including monsters) within a 10' x 10' area, up to a range of 60'. The controlled plants may be forced to leave the area. The control will last as long as the wearer concentrates on the desired effects.

Delusion: The wearer will think that this ring is any one of the other types of rings. The DM should make every effort to fool the wearer, and to keep the discovery of the ring's actual power a secret until some crucial time in the game. Some suggested misleading types include the delusions of a ring of protection or ring of spell turning.

Djinni Summoning: The wearer may summon one djinni to serve for up to one day. The djinni will only serve and obey the person wearing the ring when it is summoned, even if the ring is then given to another character. (See **MONSTERS** for a description of a djinni.) The ring may only be used once per day.

Protection +1, 5' radius: This ring improves the wearer's Armor Class and saving throws by 1 (as a normal **ring +1**), but also gives the same bonus to all friendly creatures within 5' of the wearer. For example, 3 fighters in one rank would gain this bonus if the middle one were wearing the ring.

Regeneration: The wearer will regenerate lost hit points at the rate of 1 per round. It will also replace lost limbs; a finger will regrow in 24 hours and 1 limb can be replaced in one week. The ring will not function if the wearer's hit points drop to 0 or less. Fire and acid damage cannot be cured by this ring.

Spell Storing: This ring will have 1-6 (1d6) spells stored in it when found. Once the ring is put on the wearer will know what spells are in the ring and how to cast them from it. The ring will hold only the spells in it when found; the exact spells may never be changed. After a spell is used, the ring may be recharged by a spell caster, who must cast the replacement spell directly at the ring. The ring will not absorb spells thrown at the wearer. The spells in the ring will have the duration, range and effect equal to the lowest level needed to cast them. The DM should select the type of spells in the ring; about 20% of these rings contain only clerical spells.

Spell turning: This ring will prevent 2-12 (2d6) spells from affecting the wearer by reflecting the spell back on the caster.

Telekinesis: The wearer may move up to 2,000 coins of weight by concentration alone (as the magic-user's spell).

Wishes (2, 3, or 4): A ring of wishes is an extremely powerful magic item. Wishes must be handled very carefully by the DM and the players alike. See **Wishes**, page X59.

X-ray Vision: The wearer may see a distance of 30' through a wall and into the space beyond. The effect is blocked by gold or lead. The wearer can inspect one 10' x 10' area per turn, and will be able to see any traps or secret doors in the area ex-

amined. Any items less dense than stone (such as cloth, wood, and water) can be seen through easily, to a range of 60'. To use the ring, a character must stand still and concentrate. The ring may be used once per turn.

WANDS, STAVES, and RODS

A rod may be used by any character class, but a staff or wand may only be used by a spell caster. Wands may only be used by magic-users or elves. The users of the staves explained below are noted after the name of the item (and in the previous chart) using the abbreviations "m" for magic-users and elves and "c" for clerics. Some of these items have been explained in the D&D Basic rulebook; the rest are described below. Unless specified otherwise, a wand has 2-20 (2d10) charges and a staff 3-30 (3d10) charges when found, and each use of a power will use 1 charge. Each item may be used a maximum of once per round until all the charges are exhausted.

Staff of Commanding*†: This item has all the powers of the rings of animal, human, and plant control.

Staff of Power*: This item can be used as a **staff of striking**, and can also be used to cast any of the following attack spells (each doing 6-48 (8d6) points of damage): **fire ball**, **lightning bolt**, and **cone of cold**. It can also cast a **continual light** or a **telekinesis** spell that moves 2400 coins weight.

Staff of Striking*†: This weapon will inflict 2-12 (2d6) points of damage per charge when a hit is successful. Only one charge may be used per strike.

Staff of Withering*†: A hit from this item will age the victim 10 years. The effect of old age will be fatal to animals and to most character classes, but elves may ignore the effect up to 200 years of aging. Dwarves may also ignore the first 50 years of aging. This item does not affect the **undead**.

Staff of Wizardry*: This **staff +1** has all the powers of a staff of power, plus the following additional powers: the spells of **invisibility**, **passwall**, **web**, and **conjure** (staff) **elementals**. It may also be used to create a **whirlwind** (as if from a djinni) or shoot a **cone of paralysis** (as if a **wand of paralyzation**). In addition, the wielder may break the staff, releasing all of its power at once (a **final strike**). The final strike will create a fire ball effect for 8 points of damage per charge remaining in the staff to all within 20'. All creatures within 30' of the final strike (including the wielder) will take the indicated amount of damage.

Wand of Metal Detection*: This item will point towards any mass of metal weighing 1,000 coins or more if within 20'. The user can detect the type of metal.

Wand of Secret Door Detection*: The user may find any secret door within 20'.

Wand of Trap Detection*: This wand will point out the location of all traps within 20'.

Wand of Fear*: This wand will produce a cone of fear 60' long and 30' wide at the far end. All within the cone must save vs. Wands or run away from the user (at 3 times their movement rate per round) for 30 rounds.

Wand of Cold*: This item will produce a **cone of cold** 60' long and 30' wide at the far end. All within the cone must save vs. Wands or take 6-36 (6d6) points of cold damage; a successful save will reduce damage to half.

Wand of Fire Balls*: This wand can cast one **fire ball** per round (as the magic-user's spell) for 6-36 points of damage. The victim may save vs. Wands for half damage.

Wand of Illusion*: This item can cast a **phantasmal force** spell. The user must concentrate on the illusion to maintain it, but may walk (at 1/2 normal movement rate) while doing so. The user may not cast spells nor enter melee while concentrat-
